Welcome!

GE Kuwait Technology Center

Inside Agility Kuwait Besides Overland Customs area.
On the 6th Ring Road Sulaibiya Industrial area II,
P.O.BOX : 4776 Postal Code #13048  Safat
Kuwait

GE is opening a new facility in Kuwait that will house a large generator and both steam and gas turbines. However, when the GE Kuwait Technology Center opens in 2016, it won't be lighting up homes, it will be fueling minds. In one part of this multifaceted, multi-specialty technology center, GE Power Services will use the power plant equipment to provide advanced, hands-on training and maintenance practice to power plant engineers from Kuwait and the wider region.

In another section of this unique, state-of-the-art facility, GE experts will deliver a wide range of technical training programs, using computer simulators and testing labs to improve understanding of power generation operations and troubleshooting methodologies, reflecting the company’s strategic commitment to developing the skills and capabilities of Kuwaiti students and professionals.
General

All visitors must check in at the main lobby, front desk and show proof of identification to obtain a visitor’s badge which must be worn at all times. Instructions will be given as to where to park and in which building your course is held.

Attire

The required dress is “business casual”. No shorts, sandals, tank tops, or shirts with inappropriate verbiage or signs are permitted. Jeans are acceptable that are clean and free of holes.

Personal Protective Equipment (PPE)

Students attending any “maintenance” training course are asked to bring safety glasses (Z87 standard) and safety-toed shoes. Safety glasses and safety-toed shoes are required when performing shop maintenance tasks.

Failure to have proper PPE requirements may result in student not being able to participate in affected portions of the course.

Equipment

Only authorized personnel are allowed to operate cranes and forklifts.

No Smoking Policy

Effective January 1, 2011, all GE facilities are “tobacco-free.” Smoking and tobacco products are prohibited in all areas of the property, including outdoor space owned by GE. All employees, customers, contractors and visitors are prohibited from using tobacco products anywhere on facility grounds, including in motor vehicles and any other neighboring properties. Individuals who wish to use tobacco products must leave the campus. Leaving campus is only acceptable during regularly scheduled lunch breaks. Leaving the property during shorter class breaks will not provide adequate time to return to class. Persons who do not comply will be asked to leave the campus.

Videotaping and Photography – Prohibited

Due to the technical nature of these classes, and the current legal environment, photography or recording of GE classes using audio or video is strictly prohibited.

Recommendation

Keep a copy of your passport in your luggage in case of loss.

EHS

The facility adheres to EHS policies and procedures. A full time EHS representative is present during working hours.

Any questions or concerns regarding EHS should be directed to your lead instructor or escalated as appropriate.

Facility

Kuwait Dinars or cards may be used to purchase breakfast or lunch in the cafeteria.
General Layout and Muster Point Locations

If the evacuation alarm sounds, leave the building immediately and assemble to the nearest muster point located on the map.
